

SHRED LIKE A PRO

IN-HOUSE SHREDDING DOESN'T MAKE THE CUT

In-house shredding on an as-needed basis won't keep your organization compliant in today's regulatory environment. Routine, secure shredding with a qualified vendor is the smart choice when it comes to destroying sensitive business documents.

Your organization creates documents that contain private and sensitive information. What happens if that information ends up in the wrong hands? The consequences of a security breach are devastating:

- › investigations, audits, fines & sanctions
- › severe damage to your reputation
- › the loss of your customer's trust

A secure shred program must have a rigorous, auditable chain of custody and provide customers with a Certificate of Destruction, which is used to prove compliance.

Protecting confidential information is a priority for organizations of all sizes.

**LEARN MORE ABOUT HOW A SECURE SHREDDING PROGRAM
HELPS PROTECT YOUR ORGANIZATION AND YOUR CUSTOMERS.**
